PLAYERS DISCOVER YOUR VENUE IN THE APP.

Courtside is built around the player experience first: map discovery, sport and date filters, court details, social games, bookings and notifications. The venue portal exists to keep that player experience accurate.

PLAYER PATH

Find -> book -> return

A smooth loop from discovery to repeat play.

A SIMPLE ROUTE FROM MAP TO MATCH.

Players can open Courtside, choose a sport and date, compare nearby venues, pick a court slot, pay online and receive booking confirmation. Social games and events create extra reasons to return.

01 Discover

Map and list discovery by sport, date and location.

02 Choose

Venue cards, photos, amenities, price and availability.

03 Pay

04 Return

COURTSIDE CREATES REPEAT DEMAND.

The product is not only a booking page. It also includes social games, events, friends, notifications, player profiles, bookings history and performance activity. That gives venues more ways to stay in the player's weekly routine.
